## From the Vice-Principal's Desk

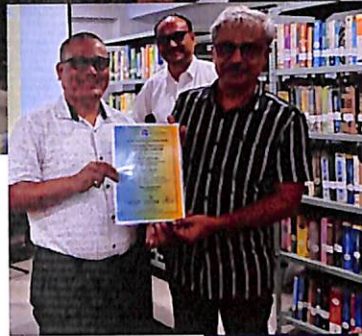

DHSK College ACC Central Library has set a trend by publishing a News Letter of its activity's since last few years. It is a good initiative to keep records of an entity. Books are a wonderful invention of mankind, through which knowledge in various fields can be stored. Later this knowledge can be acquired easily by the next generations. Now we are living in a knowledge-based environment and knowledge is power. By this, importance of books can be sensed. Today's records are the tomorrow's history. The College Librarian is doing an outstanding work by bringing out a News Letter covering all its activities of the last period. I congratulate her and her team.
